YOUR SUPPORT MATTERS

FOOD SECURITY

The Y serves those who struggle with food insecurity by providing more than 7,000 individuals and families each month with food pantries throughout San Francisco, San Mateo, and Marin counties through our partnership with the SF-Marin Food Bank.

WORKFORCE DEVELOPMENT

The Y is embedded in the communities that have been among the hardest hit by unemployment and inequality. We address unemployment and underemployment through targeted workforce development strategies including skills building, job readiness training, and job placements.

OST (OUT OF SCHOOL TIME) PROGRAMS

The Y's before and after school programs support a child's academic success and promote healthy physical, emotional, and social development. The YSF serves 10K youth daily in afterschool programs during the school year and more than 9200 in summer programs.

CONNECTION TO NATURE

The Y of San Francisco believes that time spent outdoors helps us to be our healthiest, best selves. This year, over 12,400 people of all ages participated in Outdoor Enrichment opportunities to build healthy habits and meaningful connections to nature.
